

# Sp3/4 Polyclonal Antibody

Cat No: HR1AP8370

For research use only

## Overview

Product Name	Sp3/4 Polyclonal Antibody
Source	Rabbit
Applications	WB,IHC-p,IF,ELISA
Species Reactivity	Human,Mouse,Rat
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	82kDa
GenelD?Human?	SP3/SP4
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	SP3; Transcription factor Sp3; SPR-2; SP4; Transcription factor Sp4; SPR-1
Background	Sp3 transcription factor(SP3) Homo sapiens This gene belongs to a family of Sp1 related genes that encode transcription factors that regulate transcription by binding to consensus GC- and GT-box regulatory elements in target genes. This protein contains a zinc finger DNA-binding domain and several transactivation domains, and has been reported to function as a bifunctional transcription factor that either stimulates or represses the transcription of numerous genes. Transcript variants encoding different isoforms have been described for this gene, and one has been reported to initiate translation from a non-AUG (AUA) start codon. Additional isoforms, resulting from the use of alternate downstream translation initiation sites, have also been noted. A related pseudogene has been identified on chromosome 13. [provided by RefSeq, Feb 2010],
