

## QM Polyclonal Antibody

Cat No: HR1AP8178

For research use only

### Overview

|                       |   |
|-----------------------|---|
| Product Name          | QM Polyclonal Antibody  |
| Source                | Rabbit  |
| Applications          | WB,ELISA  |
| Species Reactivity    | Human,Mouse,Rat   |
| Recommended Dilutions |   |
| Immunogen             |   |
| Species               | Rabbit  |
| Storage               | -20°C/1 year  |
| Isotype               |   |
| Clonality             |   |
| Concentration         | 1 mg/ml   |
| Observed band         | 25kDa   |
| GenelD?Human?         | RPL10   |
| Human Swiss-Prot No.  |   |
| Cellular localization |   |
| Alternative Names     | RPL10; DDX648E; QM; 60S ribosomal protein L10; Laminin receptor homolog; Protein QM; Tumor suppressor QM  |
| Background            | ribosomal protein L10(RPL10) <i>Homo sapiens</i> This gene encodes a ribosomal protein that is a component of the 60S ribosome subunit. The related protein in chicken can bind to c-Jun and can repress c-Jun-mediated transcriptional activation. Some studies have detected an association between variation in this gene and autism spectrum disorders, though others do not detect this relationship. There are multiple pseudogenes of this gene dispersed throughout the genome. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Jan 2015]. |
