

Cadherin-26 Polyclonal Antibody

Cat No: HR1AP2936

For research use only

Overview

Product Name	Cadherin-26 Polyclonal Antibody
Source	Rabbit
Applications	WB,IF,ELISA
Species Reactivity	Human
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	95kDa
GeneID?Human?	CDH26
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	CDH26; Cadherin-like protein 26; Cadherin-like protein VR20
Background	cadherin 26(CDH26) Homo sapiens Cadherins are a family of adhesion molecules that mediate Ca²⁺-dependent cell-cell adhesion in all solid tissues and modulate a wide variety of processes, including cell polarization and migration. Cadherin domains occur as repeats in the extracellular region and are thought to contribute to the sorting of heterogeneous cell types and the maintenance of orderly structures such as epithelium. This gene encodes a cadherin domain-containing protein whose specific function has not yet been determined. Alternative splicing occurs at this locus and two transcript variants, encoding distinct proteins, have been identified. [provided by RefSeq, Jul 2008],
