

Egr-3 Polyclonal Antibody

Cat No: HR1AP6180

For research use only

Overview

Product Name	Egr-3 Polyclonal Antibody
Source	Rabbit
Applications	IHC-p,ELISA
Species Reactivity	Human,Mouse,Rat
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	kDa
GenID?Human?	EGR3
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	EGR3; PILOT; Early growth response protein 3; EGR-3; Zinc finger protein pilot
Background	early growth response 3(EGR3) Homo sapiens This gene encodes a transcriptional regulator that belongs to the EGR family of C2H2-type zinc-finger proteins. It is an immediate-early growth response gene which is induced by mitogenic stimulation. The protein encoded by this gene participates in the transcriptional regulation of genes in controlling biological rhythm. It may also play a role in a wide variety of processes including muscle development, lymphocyte development, endothelial cell growth and migration, and neuronal development. Alternative splicing results in multiple transcript variants encoding distinct isoforms.[provided by RefSeq, Dec 2010],
