

DNA pol ? Polyclonal Antibody

Cat No: HR1AP3296

For research use only

Overview

Product Name	DNA pol ? Polyclonal Antibody
Source	Rabbit
Applications	WB,IHC-p,ELISA
Species Reactivity	Human,Mouse,Rat
Recommended Dilutions	
Immunogen	
Species	Rabbit
Storage	-20°C/1 year
Isotype	
Clonality	
Concentration	1 mg/ml
Observed band	38kDa
GenID?Human?	POLB
Human Swiss-Prot No.	
Cellular localization	
Alternative Names	POLB; DNA polymerase beta
Background	DNA polymerase beta(POLB) Homo sapiens The protein encoded by this gene is a DNA polymerase involved in base excision and repair, also called gap-filling DNA synthesis. The encoded protein, acting as a monomer, is normally found in the cytoplasm, but it translocates to the nucleus upon DNA damage. Several transcript variants of this gene exist, but the full-length nature of only one has been described to date. [provided by RefSeq, Sep 2011],
