

FOXP1 Polyclonal Antibody

Cat No: HR1AP5054

For research use only

Overview

| | |
|-----------------------|--|
| Product Name | FOXP1 Polyclonal Antibody |
| Source | Rabbit |
| Applications | WB,IHC-p,ELISA |
| Species Reactivity | Human,Mouse,Rat |
| Recommended Dilutions | |
| Immunogen | |
| Species | Rabbit |
| Storage | -20°C/1 year |
| Isotype | |
| Clonality | |
| Concentration | 1 mg/ml |
| Observed band | 75kDa |
| GenelD?Human? | FOXP1 |
| Human Swiss-Prot No. | |
| Cellular localization | |
| Alternative Names | FOXP1; HSPC215; Forkhead box protein P1 |
| Background | forkhead box P1(FOXP1) Homo sapiens This gene belongs to subfamily P of the forkhead box (FOX) transcription factor family. Forkhead box transcription factors play important roles in the regulation of tissue- and cell type-specific gene transcription during both development and adulthood. Forkhead box P1 protein contains both DNA-binding- and protein-protein binding-domains. This gene may act as a tumor suppressor as it is lost in several tumor types and maps to a chromosomal region (3p14.1) reported to contain a tumor suppressor gene(s). Alternative splicing results in multiple transcript variants encoding different isoforms. [provided by RefSeq, Jul 2008]. |
