

NBK (phospho Ser35) Polyclonal Antibody Cat No: HR1AP8244

For research use only

Overview

| Product Name | NBK (phospho Ser35) Polyclonal Antibody |
|--------------------------|--|
| Source | Rabbit |
| Applications | IHC-p,ELISA |
| Species Reactivity | Human |
| Recommended Dilutions | |
| Immunogen | |
| Species | Rabbit |
| Storage | -20°C/1 year |
| Isotype | |
| Clonality | |
| Concentration | 1 mg/ml |
| Observed band | kDa |
| GeneID?Human? | ВІК |
| Human Swiss-Prot No. | |
| Cellular localization | |
| Alternative Names | BIK; NBK; Bcl-2-interacting killer; Apoptosis inducer NBK; BIP1; BP4 |
| Background | BCL2 interacting killer(BIK) Homo sapiens The protein encoded by this gene shares a critical BH3 domain with other death-promoting proteins, such as BID, BAK, BAD and BAX, that is required for its pro-apoptotic activity, and for interaction with anti-apoptotic members of the BCL2 family, and viral survival-promoting proteins. Since the activity of this protein is suppressed in the presence of survival-promoting proteins, it is suggested as a likely target for anti-apoptotic proteins. [provided by RefSeq, Sep 2011], |
